- Project Update
- Project Contact Information

Project Overview

The project was awarded to McNamara Contracting, Rosemount, MN.

During construction, County Highway 21, County Highway 64 and County Highway 86 will be open to thru traffic. County Highway 61 will be detoured with access for local traffic only. The marked detour routes can be found on the Scott County website, www.co.scott.mn.us.

Project Schedule

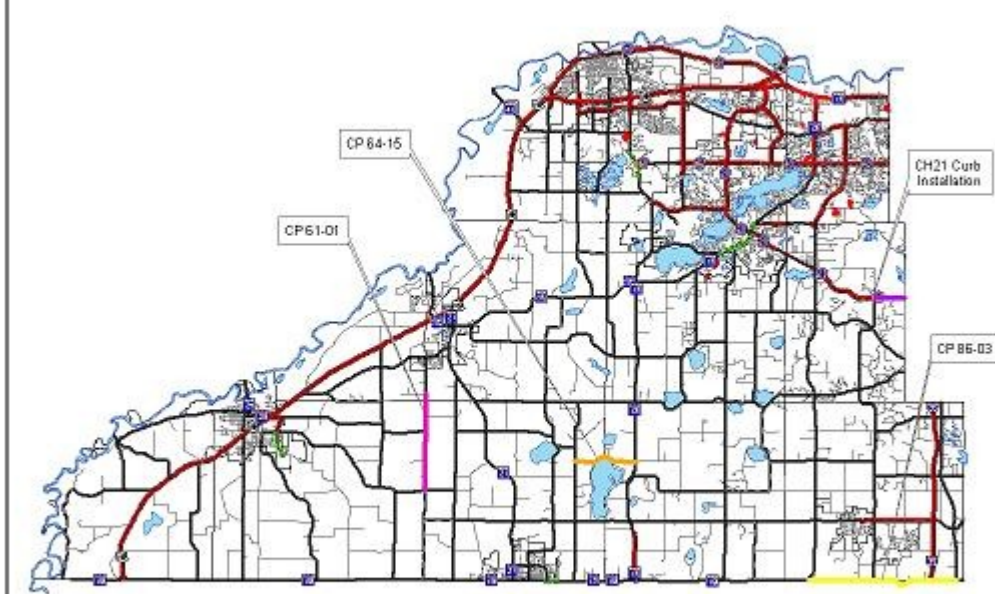

The contractor will start work the first week of August. At this time the contractor's order of work will be County Highway 61, County Highway 64, County Highway 86, and County Highway 21.

The Contractor has until early October to complete all work.

Please use caution as you travel through the work zone. Short delays may be encountered on County Highway 64 and County Highway 86.

Project Map

Project Update

Scott County's construction schedule for the summer of 2013 includes a bituminous overlay and paved shoulders for a number of rural highways, as shown on the map. This newsletter is being sent to all landowners adjoining these projects.

Included with this work is the replacement of all mailbox supports in accordance with County Policy. The County will install a new standard mailbox support that meets safety standards according to County Policy and reinstall the existing mailbox. The existing post will be offered to the property owner. The old post will be left alongside the new mailbox support for 2 weeks after installation and will then be removed by the contractor.

- ◇ The Contractor is required to have a flag person direct traffic through the construction zone.
- ◇ It is the policy of Scott County to pave the residents'/landowners' principal driveway to the Right-of-Way limits on rural roads.
- ◇ If you have any questions or need additional information please contact Len Laxen at (952) 496-8097.

Thank you for your patience during this project and have a safe and enjoyable summer.
